

RESIDENT FORUM Q3 - 2018				
SR #	Question / Suggestion	AKIS Response	Action Required	Status
1	<ul style="list-style-type: none">•Social interaction: Dedicate a month for the Security team, or land scape team , or club creation team or medical team or whoever team is daily serving the community, to be praised and recognized in a formal celebration in AKIS during school day. For example the month of November will be the Security team month. Kids will have a sense of respect towards these teams.	This is a wonderful suggestion and we will ask AKIS for their consideration of this proposal and see if we can establish a liaison team to drive an initiative like this!	Possible options scenarios can be considered	Closed
2	<ul style="list-style-type: none">•Safety: Old field is becoming a hazardous playground for the kids because of its poor ground. On the other hand the new field lacks enough lights.	The school football fields are maintained by Landscaping section and we have copied them into this mail for their reference to see what action can be taken. I personally raised the point with the floodlight of the new field with AKIS facilities team, but understandably as asset coordinators they are reluctant to improve the situation, as they are actually not using the field during evening hours. We will bring it up in meeting and see the Managers feedback!	To be considered for future budget cycle	Closed
