Subject : **Removal of All Conocarpus and other Hazardous Trees in AKC**

Dear Residents,

This is to inform you that wall crack issues, safety hazards, and damages in our facility structure due to Conocarpus and other trees have increased exponentially.

In this regard, AKC management decided to remove all Conocarpus trees and other hazard producing trees in Al Khor Community in order to eliminate all existing hazard and prevent further damages in the future. Rest assured that our landscaping team would inform you before starting any tree removal works in your villa.

We appreciate your outmost support and understanding to ensure this campaign will run smoothly.

Best Regards,

Hamad Al Humaidi
Community Director
