10th May, 2017

To : **All Residents**
Al Khor Community

Subject : **Removal of personal items from public areas**

Dear Residents,

All personal items stored in stairwells and corridors will be removed for disposal by the Housing team, from 28th May 2017, as these items are a Health and Safety risk.

In the event of a fire or smoke filled building, these items pose a real threat to all residents as they could hinder any evacuation or rescue. Old furniture and other items attract rodent and vermin, and prevents thorough cleaning of the common area by our contractors, leading to a dirty and unhealthy environment for residents.

We therefore ask all residents to remove any unauthorized items immediately, as we will begin to clear the buildings and dispose of any remaining objects with effect 28th May, 2017.

This includes furniture, prams and strollers, bicycles, carpets and any other personal items.

We seek your kind cooperation and understanding in making this community a healthy safe and peaceful environment for us all.

Best Regards,

Hamad Al Humaidi
Community Director
