Once your child has taken our test, you may register for Kumon Math.

Al Khor Community Center
Discounted Fees
Only 400 QR

Center timing:
From 4:00pm to 7:00pm
every Sunday and Wednesday

Kumon can take your child from counting to calculus and beyond.

Enrolling in the Kumon Math Program will help build and advance your child's math skills, for an advantage in school and beyond.

Daily Kumon Math Worksheets take from 10 to 30 minutes to complete in two sessions a week at the Kumon Center, and then another five assignments to be completed at home. Your child will work at his or her own pace, mastering each new concept before moving on. With each worksheet, you'll find your child accelerating important math skills. Many Kumon parents ultimately find their children mastering concepts that put them grade levels ahead of their peers.

What topics are covered in the Kumon Math Program?

The Kumon Math Worksheets can help your child learn basic skills all the way through high school-level math. Kids progress though the different worksheet levels is irrelevant to their age or school grade.

Counting and number sequencing	Order of operations	Algebra – Elementary to Advanced (algebraic expressions, linear equations, inequalities, functions, quadratic equations)
Addition and subtraction	Positive and negative numbers	Trigonometry and Logarithms
Multiplication and division	Solving equations	Calculus
Fractions	Graphs	Probability and statistics
