Safety Tips

- Make sure you have been trained in the safe handling and use of the specific pesticide.
Read the label and the MSDS that accompany the pesticide. Check that the MSDS is up to date. (It must be updated every three years.)
Ensure that all containers have proper labelling to identify their contents.
Store pesticides in a properly ventilated, locked area. Post warning signs.
Check the weather to make sure that winds and rain won't affect your application.
Use PPE such as respirators and protective clothing, as recommended by the manufacturer.
Ensure that there are no other workers or bystanders who could be exposed to the pesticide.
